

Taiwan CARE 2017

時間：2017年11月4日

地點：台北萬豪酒店 36F

主題：New Development in Vitreo-retinal Diseases

Time	Topic	Speaker
13:30 - 13:35	Opening	Chung-May Yang
Session 1 Medical Retina		
Moderator: Chang-Hao Yang, Shih-Jen Chen		
13:35 - 13:50	New Development in Angio-OCT	Shih-Jen Chen
13:50 - 14:05	Macular edema: A practical approach	Anat Lowenstein
14:05 - 14:20	Update in the management of AMD	Cheng-Kuo Cheng
14:20 - 14:35	All you have to know about PCV	Ling Yeung
14:35 - 14:50	Update in the management of DME	Anat Lowenstein
14:50 - 15:05	New Development in Visual Restoration	Chang-Hao Yang
15:05 - 15:30	Break	
Session 2 Surgical Retina / Pediatric Retina / Uveitis		
Moderator: Chung-May Yang, Shwu-Jiuan Sheu		
15:30 - 15:45	Surgical Management for diabetic retinopathy	Chung-May Yang
15:45 - 16:00	Surgical management for macular diseases	San-Ni Chen
16:00 - 16:15	Something new about surgical retina in pathological myopia	Tzzy-Chang Ho
16:15 - 16:30	Pediatric vitreoretinal hemorrhage	Wei-Chi Wu
16:30 - 16:45	Update in TB uveitis and sarcoidosis	Shwu-Jiuan Sheu
16:45 - 17:00	Update in CMV uveitis	Yih-Shiou Hwang
17:00- 17:10	Closing	
Pre-Dinner Symposium		
Moderator: San-Ni Chen		
18:00 - 18:20	Half versus Standard dose PDT combined with Ranibizumab for PCV	Ian Wong
18:20 - 18:40	Central Serous Chorioretinopathy: what we have learnt so far	Ian Wong
18:40 - 19:00	Discussion	
Gala Dinner	19:00-21:30	

第六屆視網膜醫學會年會暨第二屆台泰視網膜醫學會聯合會議

時間：2017 年 11 月 5 日

地點：台北張榮發基金會國際會議中心 1001 會議室

Time	Topic	Speaker
8:30~8:45	Opening	Jorn-Hon Liu Chung-May Yang Paisan Ruamviboonsuk
Session 1	International Retina Forum	
Moderator	Chang-Hao Yang, Shih-Jen Chen	
8:45-9:00	Macula edema: Beyond the surface	Anat Lowenstein
9:00-9:15	Pachychoroid neovascularopathy	Sotaro Ooto
9:15-9:30	nAMD and Pachychoroidal neovascularopathy: are there different considerations?	Sotaro Ooto
9:30-9:40	Discussion	
Session 2	2nd Thailand-Taiwan Retina Society Joint Meeting – 1	
Moderator	Paisan Ruamviboonsuk, Chung-May Yang	
9:40-9:50	Lamellar hole associated epiretinal proliferation (LHEP)	Supalert Prakhunhungsit
9:50-10:00	Inner nuclear layer microcysts in patients with epiretinal membrane after vitrectomy and membrane peeling	Ming-Hung Hsieh
10:00-10:10	Peripapillary pachychoroid syndrome	Nopasak Phasukkijwatana
10:10-10:20	Flow signal change in polyps after anti-vascular endothelial growth factor therapy	Yi-Ming Huang
10:20-10:30	Discussion	
10:30-10:50	Group photo and coffee break	
Session 3	2nd Thailand-Taiwan Retina Society Joint Meeting – 2	
Moderator	Anat Lowenstein, Cheng-Kuo Cheng	
10:50-11:00	Clinical use of OCT angiography as a decision Making in retina and uveitis	Thanapong Somkijrungraj
11:00-11:10	Choriocapillary flow changes in central serous chorioretinopathy evaluated with OCT angiography	Kuei-Jung Chang
11:10-11:20	ICGA is not always needed to diagnose PCV	Voraporn Chaikitmongkol
11:20-11:30	The characteristics of branched vascular network morphology in polypoidal choroidal	Chu-Hsuan Huang

	vasculopathy detected by OCT Angiography	
11:30-11:40	Discussion	
Session 4	2nd Thailand-Taiwan Retina Society Joint Meeting – 3	
Moderator	Atchara Amphornphruet, Yih-Shiou Hwang	
11:40-11:50	Management of common posterior segment tumors :Thailand experience	Duangnate Rojanaporn
11:50-12:00	Development and validation of a deep learning algorithm for prediction of treatment of diabetic macular edema with ranibizumab	Shao-Chun Chen
12:00-12:10	Variable presentations of Intraocular parasite	Tharikarn Sujrakul
12:10-12:20	Beta-blockers and age-related macular degeneration	Ling Yeung
12:20-12:30	Discussion	
12:30-13:00	Membership meeting	
13:00-14:00	Lunch & Election	
Session 5	Debate: First line and early treatment of corticosteroids in DME: Yes or No?	
Moderator	Shwu-Juan Sheu	
14:00-15:00	Pros: Baruch Kuppermann Cons: San-Ni Chen	
Session 6	OCT Angiography: advanced course	
Moderator	Chang-Hao Yang	
15:00-15:15	Diabetic retinopathy and OCTA	Mong-Ping Shyong
15:15-15:30	Unveil BRVO by OCTA	Ling Yeung
15:30-15:50	New Technic, New Parameter, New Standard of OCTA	Jian Zhou
16:00-16:15	Coffee Break	
Session 7	Allergan Scholar Winner Presentation	
Moderator	Chia-Lee Lin, Lee-Jen Chen, Jiann-Torng Chen	
16:15-16:23	Inverted Internal Limiting Membrane Insertion for Macular Hole–Associated Retinal Detachment in High Myopia	San-Ni Chen
16:23-16:31	Laminin modification subretinal bio-scaffold remodels retinal pigment epithelium-driven microenvironment in vitro and in vivo	Chi-Hsien Peng
16:31-16:39	Astaxanthin Inhibits Expression of Retinal Oxidative Stress and Inflammatory Mediators in Streptozotocin-Induced Diabetic Rats	Po-Ting Yeh
16:39-16:47	Half-dose Versus Half-time Photodynamic Therapy for Central Serous Chorioretinopathy	Hsin-yu Liu

16:47-16:55	Efficacy of Intravitreal Injections of Triamcinolone Acetonide in a Rodent Model of Nonarteritic Anterior Ischemic Optic Neuropathy	Tzu-Lun Huang
16:55-17:03	Epiretinal membrane-induced full thickness macular holes-The clinical features and surgical outcome	Chia-Ying Tsai
17:03-17:10	Closing	
The End
